SUMMARY

AI training data specialist with hands-on experience in image annotation, audio transcription, and dataset quality assurance for machine learning applications, backed by 5+ years of high-volume, high-accuracy data processing in U.S. healthcare administration. Skilled at following detailed annotation guidelines, validating datasets before submission, and maintaining accuracy across large daily record volumes. Available full-time or part-time on remote U.S. hours.

EXPERIENCE

Medical Virtual Administrative Assistant (Back-Office) | Remote | Nov 2023 - Sep 2026
Resident Eye Care Associates

- Processed 50+ insurance eligibility and benefits verifications per day, cross-referencing four separate platforms against strict accuracy and compliance requirements.
- Pre-charted and entered clinical documentation into structured records for 50+ patient charts per day, following detailed data-entry and compliance guidelines.
- Reviewed and audited facility records daily across 15-25 partner facilities, verifying and correcting status and demographic data.
- Identified a recurring data-entry inefficiency and redesigned the process into consolidated batch entry, adopted for ongoing use.
- Built Excel, Outlook, and Word automations to standardize recurring documentation and reporting tasks, cutting daily processing time from about 3 hours to about 1.

Analyst Level 2, AI Data Annotation & Quality Assurance | Jan 2026 - Apr 2026
Innodata | *Remote, part-time*

- Annotated medical and everyday object images to improve AI model performance and training accuracy, following detailed annotation guidelines.
- Reviewed image datasets against annotation guidelines while maintaining quality standards across assigned batches.
- Performed quality assurance and data validation on datasets before submission.
- Transcribed and structured speech recordings into clean, standardized text for machine learning applications.

AI Data Contributor, AI Training Data & Transcription | Sep 2025 - Dec 2025
TELUS Digital AI | *Remote, part-time*

- Transcribed audio recordings into structured datasets used for AI model training.
- Constructed high-quality text outputs from spoken content, following detailed annotation guidelines.
- Performed data validation and quality review to ensure consistency across assigned projects.

Subject Matter Expert / Assistant Team Leader | Nov 2022 - Oct 2023
Optum | *Cebu City, Philippines (Hybrid)*

- Reviewed and corrected agent documentation for accuracy and compliance across up to 3 teams; trained and coached 10+ agents on documentation standards.
- Monitored QA, adherence, and performance metrics; built and maintained daily/weekly reporting trackers.

Customer Service Representative, Prior Authorization | Nov 2020 - Nov 2022
Optum | *Cebu City, Philippines (Hybrid)*

- Verified and entered patient insurance eligibility, provider details, and CPT codes into internal systems for 30-50 cases per day, determining outcomes against defined review criteria.

EDUCATION

Bachelor of Science in Computer Engineering, STI College Surigao (Aug 2019)

CERTIFICATIONS & TRAINING

- HIPAA Certified, Biologix (2024, renewed 2026)
- Additional training: Ready To Round, 360MVA, VA Of The Future (2024)

SKILLS

- AI/ML training data annotation: image labeling (medical and everyday objects) and dataset review against detailed guidelines
- Audio transcription and structuring of speech recordings into clean, standardized text for machine learning applications
- Data validation and quality review across assigned datasets prior to submission, maintaining consistency across projects
- High-volume structured data entry and documentation: 50+ records processed daily across multiple systems under strict accuracy standards
- Documentation QA and compliance review; trained and audited 10+ team members on documentation accuracy
- Google Workspace, Microsoft Office (Word, Excel, PowerPoint, Outlook); comfortable with dataset organization and reporting tools
